# **INTRODUCTION**

Write here about the field or domain in which you are going to make the project...as well as how your project is going to influence this field or domain positively...

## **DESIGN & ANALYSIS**

Write here about the Design and Analysis of your project...also write here about the software and hardware requirement of your project...

#### **IMPLEMENTATION**

Write here about the front end, back end, technologies used in your project as well as ER Diagram, Database tables, Data Flow Diagrams, Use Case Diagrams, Snapshot of your project, User Interface etc...

# **TESTING**

Write here about testing methodology used to test your project as well as about the data validation imposed in your project...

# CHAPTER 5 CONCLUSION & FUTURE SCOPE

Conclude about your project and also discuss the future scope of your project...

## **APPENDIX A**

## **CD CONTENT**

- 1. README.TXT
- 2. HOW TO INSTALL.DOC
- 3. SOURCE CODE: Contains the actual source code and saved files
- 4. DOCUMENTATION: Contains user manual
- 5. TOOLS: Contains the supporting tools like Microsoft Visual Studio 2005
